Intense Excitement at Shreveport.

Warrants Issued for the Arrest of Sixty-Nine Prominent Merchants of the City.

NEW YORK, October 23.—A special to the Times from Shreveport reports great excitement there, caused by the prospective arrest of prominent merchants and freeholders. The arrests are grounded on the following:

SHERVEPORT, October 16.—We, the undersigned, merchants of Shreveport, in obedience to the request of the Shreveport Campaign club, agree to use every endeavor to get our employes to vote the Peoples' ticket at the ensuing election, and in the event of their refusal so to do, or in case they do vote the radical ticket, to refuse to employ them at the expiration of their present contract."

This was signed by sixty-nine of the leading merchants of the city. Warrants are issued. There is a general determination on the part of the younger merchants who are implicated to mount their horses and take to the woods. This might end in guerrilla warfare.

A. B. Livissey, formerly district judge, and a candidate for the legislature on the radical ticket, is United States commissioner before whom the affidavits were made and whose duty it is to issue warrants of arrest.

NEW ORLEANS, October 23.—A compromise has been effected in Jefferson parish between the conservatives and republicans.

TEXAS AFFAIRS.

Arrival of Railroad Officials and Other Excursionists at Galveston.

Commodore Morgan's New Line of Steamships Between Galveston and Vera Cruz.

GALVESTON, October 20.—The splendid Pullman passenger car, "Prairie Queen," arrived at half-past seven o'clock last night with the officers of the Missouri, Kansas and Texas railroad and other excursionists on board.

It is reported that Charles Morgan thinks seriously of establishing a line of steamships on the route between New Orleans and Vera Cruz, provided Congress will afford a reasonable mail subsidy, and that it is the intention of Mr. Morgan to organize an excursion to the City of Mexico at an early date.

One of the finest steamships of the line will convey the excursionists, who will embrace a number of prominent gentlemen in mercantile and public positions, to Vera Cruz, whence they will proceed to the City of Mexico. Such a trip, touching at Galveston, would very soon develop a large business, and not only is Texas interested, but St. Louis, Kansas City and other western cities.

It is estimated that at least five thousand people attended the circus and menagerie last night.

The Galveston Civilian, established in 1859, suspended this morning.

Henry Greenwald, manager of the Galveston opera house, arrived here to-day. The troupe engaged for the season, left New Orleans this morning and is expected here to-morrow. The season will be regularly inaugurated on Monday evening, the 23d instant.

Among the excursionists arrived last night are R. S. Stevens, general manager, and John Sculian, of the Missouri, Kansas and Texas railway; also James Skiddy, E. A. Bell and H. A. Johnson, New York capitalists.

In territory, Texas occupies more than the fourteenth part of the whole area of the United States, with the territory of Alaska included. In climate she embraces 10 degrees of latitude, ranging from 35 degrees to 46 degrees south, with a rare and remarkable uniformity of temperature, bordered as she is on the one side by the gulf of Mexico, from whence there issues almost a constant breeze to her higher latitudes; on the west she is bordered by the high plains of Mexico, from whence with equal regularity flow gentle and genial winds, intersecting the gulf breeze and giving a salubrity of atmosphere unknown to other continental regions.—[Hempstead Messenger.]

A RATTLESNAKE was killed in the suburbs of town, the other day, five feet and a half long, with ten rattles and a button. Being cut open, it was found to contain the biggest boy in town. But Feathers says he can not clay one, as he has two at his house. Feathers' are the seventh pair of twins born in and near Gainesville this year, up to date.—[Gainesville Gazette.]

A TELEGRAM received at the navy department

The Result, its Causes and its Course.

The result of the late election in this state and in Ohio, indicates most clearly that the rotten house of the party in power is undermined and must soon fall, with a crash altogether unprecedented in the political history of this country! The people had borne with the injustice and outrages of the party in power, hoping that a sense of right and propriety would suggest itself to the leaders of that party.

Instead of giving any evidences of the realization of such a hope by their conduct, the administration and its adherents seemed to be growing more and more indifferent to their duty and to the rights of the public from year to year, and from day to day. They acted as if they had an unlimited lease upon the offices and upon the patronage of the country, and were determined to run the government for their own private advantage and individual gain.

The people, the source of all power in this country, they seemed to have utterly ignored, and their rights were entirely disregarded and trodden under foot. Corruption and dishonesty stalked brazen-faced throughout the land, and law and order were things that existed altogether in the imagination. That such a state of affairs would have existed for any length of time in a government like ours, where the people are the rulers, would have been an admission that they as well as those in power, were corrupted, and all hope of a reputable form of government would have departed. Thank God, another solution of this problem has been given. The masses may be, and often are slow to move, but when that movement begins it comes like an avalanche and will withstand no opposition.—[Terre Haute Journal.]
